

**Workplace Tobacco Policy Result  
May - December 2002  
Northern Kentucky District Health Department**

The purpose of the survey was to assess the number and type of tobacco policies, as well as tobacco prevention education, in manufacturing companies located in the Northern Kentucky District Health Department area. Results will be used to determine opportunities for workplace health promotion in this district.

In the Northern Kentucky District, 64 manufacturers participated in a telephone survey conducted by the Tobacco Prevention Coordinators in collaboration with the research staff at the University of Kentucky (61.5% participation rate). The mean number of employees was 249.1. On average, 85.8% of the employees were Caucasian, and 65.4% were male. The TOTAL column represents 625 manufacturing companies in 50 health department service areas.

	<u>Northern Kentucky</u>	<u>Kentucky</u>
1. Does your company have a written smoking policy? Yes	n=63 42 (66.7%)	n=620 456 (73.6%)
2. If "No," does your company have a smoking policy that is not in writing? Yes	n=21 15 (71.4%)	n=162 126 (77.8%)
3. If "Yes," how is the company policy communicated?	n= 58	n=589
1. Employee handbook	33 (56.9%)	391 (66.4%)
2. Hallways	19 (32.8%)	184 (31.2%)
